Piloting Directions for the Gulf of Finland

by John William Norie (1772-1843)

Norie's series of piloting and sailing directions was something of a staple in the chart-room of 19th century British (and other) merchant vessels. The description of landmarks and ports, as well as the rules and regulations provide another viewpoint to an earlier age.

Please note that these piloting directions are rather completely out of date. They are given here for purposes of historical interest only, and should not be used for navigation purposes.

This project has 7 files and a total running time of 2:10:32.

Read by Pentti Hirvonen, Anna Simon, MaryAnn and Ted Garvin
Proof-Listeners: Maria Therese, garyday, redaer, Sarah Jennings
Cover: Map from 1856
Cover design: Bart de Leeuw
Book Coordinator/Meta-Coordinator/Cataloging: Sarah Jennings
